

How to Assemble

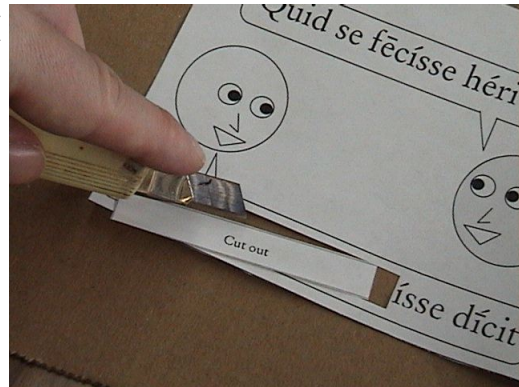

This is just one way to assemble this visual.

I

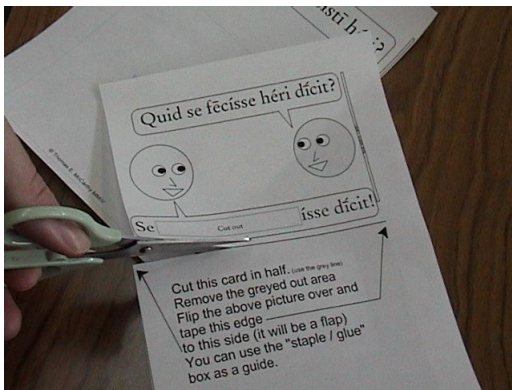

Cut the first page in half -- use the grey line.

II

Cut out the box.

III

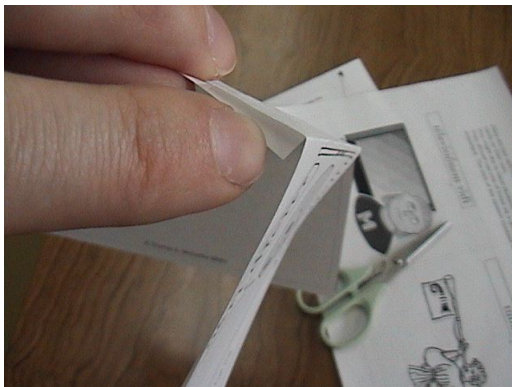

Cut the right side of page one in half -- throw out the lower part.

IV

Line up the two parts and staple or glue. **IMPORTANT:** Line it up correctly and straight!

V

(Option) I used the extra edge of the top part. I folded it over and glued it to the back.

The Finished Product
